

PUBLIC HEALTH EMERGENCY ORDER No. 20-002

Social Distancing

November 12, 2020

WHEREAS, COVID-19 is a respiratory disease that can result in serious illness or death, is caused by the SARS-CoV-2 virus, which is a new strain of coronavirus that had not been previously identified in humans and can easily spread from person to person. The virus is spread between individuals who are in close contact with each other through respiratory droplets; and

WHEREAS, on January 30, 2020, the International Health Regulations Emergency Committee of the World Health Organization declared the outbreak of COVID-19 a public health emergency of international concern; and

WHEREAS, on November 12, 2020 the City Council and Mayor of the City of Stanley, declared a local disaster emergency, as per the Disaster Preparedness Act (Title 46, Chapter 10 of the Idaho Code), in the city of Stanley due to the threat that COVID-19 poses to the health and welfare of the residents of Stanley; and

WHEREAS, on November 12, 2020, the Council for the City of Stanley adopted an ordinance enacting a new Chapter 24 of Title 2, setting forth the authority, purpose, and intent of emergency powers to address the threat of COVID-19; and

WHEREAS, on November 4, 2020, Idaho Governor Brad Little signed a declaration of emergency for the State of Idaho in response to concerns that cases of COVID-19 are imminent in Idaho; and

WHEREAS, the CDC reports that people may be contagious whether they are symptomatic or remain asymptomatic but still are infected with the virus; and

WHEREAS, the State of Idaho, Department of Health and Welfare and the Eastern Idaho Public Health District continue to recommend that people wear face coverings and maintain physical distancing of at least 6 feet (2 meters) when in public places; and,

WHEREAS, as of November 12, 2020, Idaho was reporting 77,121 total cases of COVID-19, including 1,6793 new cases on November 12, 2020 and 733 deaths to date; and

WHEREAS, some individuals who contract the COVID-19 virus have no symptoms or have mild symptoms, which means they may not be aware they carry the virus. Because even people without symptoms can transmit the disease, and because evidence shows the disease is easily spread, gatherings and contact between seemingly healthy individuals can result in transmission of the virus.

WHEREAS, the City of Stanley, Custer County, and the Eastern Idaho Public Health District are experiencing a significant increase in known COVID-19 infections in recent weeks; and

WHEREAS, the increase in infections is likely to result in an increase in hospitalizations and usage of ICU beds and ventilators; and

WHEREAS, there are no ICU beds or ventilators in Custer County and the City of Stanley and there is concern among health care providers that a spike in COVID-19 cases will result in a need to divert critically ill patients, which need will not be met due to a lack of available ICU beds and ventilators statewide; and

WHEREAS, the Centers for Disease Control and Prevention advises that people who are not infected with the virus can significantly reduce their risk of contracting it by wearing face coverings, and that people who are infected can significantly reduce the risk of spreading it to others by wearing face coverings; and

WHEREAS, the Centers for Disease Control and Prevention advises that maintaining a physical distance of at least 6 feet (2 meters) is effective at significantly reducing the transmission of COVID-19; and

WHEREAS, there is a continuing and urgent need to protect all residents, employees and visitors in the City of Stanley from the risks relating to the COVID-19 pandemic through the protection provided by wearing facial coverings;

 - f.
