**OLD BUSINESS/NEW BUSINESS:**

Discuss Town Hall Meeting date for Stanley-Redfish Trail: Mayor Botti handed out a map with two different options for the Stanley-Redfish trail coming into town. The Trail comes into park from the south and continues around the picnic shelter and dead ends at airport road. From this point there are two options:

1. Follow directly along the east side of Airport road extending all the way down thru Wall Street to HWY 21. This grade would exceed ADA standards.
2. The trail meanders thru the Park and curves over to the east (actually goes into the division of aeronautics property) and then meanders down to the east side of Critchfield, from here the trail can go north or east into Mountain Village's properties (Botti has spoken with Mr. Clark and he is willing to create the trail,

but he is not willing to issue an easement). Or the trail can turn left (west) onto Critchfield and then connect with Wall Street.

The Forest Service's plans are to begin construction this summer and they plan on being completed by 2019. So, we therefore, would have to obtain a grant or grants soon. We would like to start trail construction (for our portion of the trail) in conjunction with the Forest Service so when people reach Pioneer Park they have somewhere to go and are not forced to walk down Airport Road. If we decide to use the route on Critchfield (#2) then Botti would like to incorporate a pedestrian bike path project on the east side of Wall Street that is east of the current parking plan on Wall Street. Botti states there is plenty of room to have both. This option is also ADA approved.

Councilmember Wilson states that the trail going down Airport Road would not be safe due to the heavy traffic and winter snow conditions would damage the trail due to all the snow plowing activity and he does not feel this is a viable option. Botti would like to hold a town hall meeting regarding the Stanley-Redfish Trail and the pedestrian bike path on Wall Street. It was decided to set the meeting up on 3/19/18 @ 6:00 p.m.

Contract for Wall Street Parking and pedestrian-bike path project: the pedestrian bike path will be 8' wide there is an 80' wide right-of-way, driving lanes would be approximately 22-24', there will be 4' buffer between pedestrian bike path and the parking. This will leave 20' for parking. The rest is basis contract terminology for equipment. This was presented to the City Council with no objections.

Dark Sky Reserve Star Party – June 15-16, 2018 – MOU with Boise Astronomical Society. Councilmember Wilson make a motion to approve the MOU with Boise Astronomical Society as presented. Councilmember Sentz seconds. All approve. Motion passes.

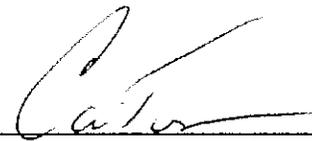

**CITY CLERK REPORT:**
