MAYORAL COMMENTS:

Mayor Mumford comments there are a lot of people in town; we had a good turnout on the 4th of July. Mayor Mumford pointed out we need to be kept notified on any changes of the upcoming Street Dances throughout the summer months.

Mayor Mumford also points out that there is an ongoing trash issue here in town. The Forest Service has removed their trash dumpster from the parking lot on hwy 75 that was in place for tourist and not for use by the community of Stanley (this lot is also referred to as the K-Mart parking lot). They removed the dumpster because of the growing use by the community. The Mountain Village has experienced the same problem with their dumpster. The City of Stanley is also experiencing similar problems, the City does not provide trash services for the community or the public (only for renters of the community room and park), it is not in our budget to do so, and therefore, it was decided to lock our dumpster.

CITIZEN PARTICIPATION:

John Phillips spoke regarding the speed trenches; Mr. Phillips thinks we need an additional one at the top of Wall Street. People are traveling way to fast coming off the top of the hill. He discussed the handicap parking at the community building. The Council pointed out that there is handicap parking in the front of the building on Hwy 21.

COUNCIL COMMENTS:

Council President Botti commented that John Hess the general manager of Boise State Public Radio will be having a meeting to discuss the future of Public Radio on Wednesday, July 16, 2014 at the library from 6:00 to 8:00 p.m. This is specifically for rural Idaho.
